EDUCATION

2020/01 – present	BSc Engineering <i>Khulna University Of Engineering & Technology</i> CSE Unergraduate (Forth Year)	Khulna, Bangladesh
2017/06 – 2019/05	Higher Secondary Certificate <i>MC College</i>	Sylhet, Bangladesh

SKILLS

C | C++ | Python | Java | C# | SQL | Oracle Database |
Laravel | Javascript | SwiftUI | MS Office

PERSONAL SKILL

Critical Thinking | Management | Communication |
Team Leadership | Problem-Solving

PROJECTS

CfL

Care for Love (A collaborative Project based on kotlin to identify and suggest Heart patients)

An innovative mobile application developed in Kotlin and Android, designed to identify potential heart patients through user input and medical criteria. This project showcased my ability to create intuitive interfaces and integrate complex algorithms for healthcare diagnostics. Here we also confirmed the unit testing, UI testing and others to ensure the quality of the app.

Teleport 24/7

A courier Management app for three different platform

Most significant project which was developed individually by Java, Android, Laravel to use it in every platform.

Github link: <https://github.com/PKD118/Teleport-Java-App> ↗

TeleportD 24/7

Database built for Courier Management purpose

All three previous project use this database which was developed for Third Year laboratory course.

Foodier! & Foodier Restaurant

Two associative food order and delivery app for iOS

two apps working simultaneously together where user can order, search, favorite, track their food and restaurants can add, take order, categorize, track and give the update about cooking or delivery of the food item. They developed using SwiftUI, Firebase and some useful API like MapKit and others.

PROFESSIONAL EXPERIENCE

2023/04 – 2024/04	CSE Association, KUET <i>General Secretary</i> <ul style="list-style-type: none">• Led organizational strategy and operational initiatives.• Enhanced team collaboration and streamlined reporting processes.• Coordinated events and ensured adherence to compliance standards.
